

PHILIPPINE INFORMATION AGENCY
PIA Bldg, Visayas Avenue, Diliman Quezon City

REQUEST FOR QUOTATION (RFQ)

The Philippine Information Agency (PIA), through its Bids and Awards Committee (BAC), hereby invites all interested suppliers to quote their lowest price on the items listed in the Suppliers Quotation Form (Annex A) subject to the General Conditions stated herein.

NAME OF PROJECT: **PROCUREMENT OF ONE (1) LOT OF LICENSE FIREWALL SUBSCRIPTION FOR ONE (1) YEAR**

APPROVED BUDGET FOR THE CONTRACT: **Php 350,000.00**

General Conditions:

1. Bidding will be conducted through Small Value Procurement under Section 53.9 of the Revised Implementing Rules and Regulations (IRR) of Republic Act. No. 9184, otherwise known as the "Government Procurement Reform Act."
2. Suppliers are required to submit the following prior to notification by the BAC of the award:
 - a. Valid & Current Mayor's/Business Permit for 2024;
 - b. Valid & Current PhilGEPS Registration Certificate/Number;
 - c. Income Tax Return (for ABCs above P500K)
 - d. Omnibus Sworn Statement (for ABCs above P50K);
 - e. Bids should be valid for a period of 90 days.
3. DELIVERY PERIOD:
4. The total price quoted is subject to VAT and other applicable taxes and payable check;
5. Payment shall be prepared through Advice to Debit Account upon receipt of the supplier's Statement of Account, subject to deduction of applicable taxes.

For further inquiries, please coordinate with Paul John Delos Santos at mobile number 0985-3050-095. The Quotation may be submitted through e-mail at paul.delossantos@pia.gov.ph.

The Philippine Information Agency (PIA) reserves the right to accept or reject any or all Quotations/Bids, to annul the bidding process, and to reject all bids at any time prior to contract award, without thereby incurring any liability to the affected Bidder(s), and to accept offer that is most advantageous to the Government.

Terms of Reference for
Stormshield SN710 Firewall Appliance
Period Covered: June 21, 2024 - June 21, 2025

Overview

The **Stormshield SN710** appliance is a next-generation firewall in which its signature needs to be updated regularly as new vulnerabilities are being discovered everyday.

It is the main gateway of the Philippine Information Agency to the internet. It provides protection against cybercriminals to the computing devices and network nodes, such as web/database servers, desktop, laptops, mobile devices, network devices. It can also filter websites, customize bandwidth allocation, internet bandwidth load balancing, deep packet filtering and more.

This appliance was procured and delivered in 2018 and is currently installed at the PIA Server Room and received regular updates for the application signatures, and firmware updates. There are approximately 400 wired and wireless devices concurrently connected to the PIA network every single day.

To continuously protect the PIA network against cyber threats, the firewall must receive its updates regularly or as soon as a new vulnerability is discovered. Thus, the need of procuring the one (1) year license is necessary.

Purpose

- for the renewal of PIA's primary network security appliance license for one (1) year
- to receive up-to-date firewall signatures and definitions (Maintenance)
- for continuous protection of critical endpoints within PIA and its DMZ network, thru advance filtering (Stormshield Vulnerability Manager, Kaspersky Antivirus, Sandboxing, Extended Web Control Option)
- for effective internet bandwidth control and management
- for real time monitoring and,
- analyzing network activity/audit logs

Features

Antivirus/anti-spam and Web domain filter signatures

Everyday, new attack vectors are being exploited in the wild. Malwares, spams, and phishing sites are being developed and spread by cybercriminals to achieve their objectives. With this, firewall application signatures need to be up to date to detect and prevent any intrusion..

Intrusion Detection/Prevention System (IPS/IDS)

Real-time protection for incoming and outgoing network traffic.

Bandwidth Management

Bandwidth-hungry sites, like torrents, ftp, media streaming sites, downloading sites, porn, gambling, hacktivism, and other non-work related sites, are being filtered in the firewall.

Sandboxing

To ensure that all files being downloaded over the internet or files being transferred from computer to server are free from malware, and/or any security threat, sandboxing is being utilized.

Licensing

The firewall appliance will have its end of life on the **31st of December 2037**.

Signatures for Antivirus/antispam/IPS/IDS will receive signature updates until **21st of June 2024** unless renewed for another one (1) year.

The screenshot displays the Stormshield Network Security v4.6.2 web interface. The top navigation bar includes 'MONITORING' and 'CONFIGURATION' tabs, with the 'CONFIGURATION' tab selected. The user ID 'SN710' and device ID 'SN710A27C3380A7' are visible in the top right. The left sidebar shows a menu with 'CONFIGURATION' expanded, and 'License' selected. The main content area is titled 'SYSTEM / LICENSE' and has two sub-tabs: 'GENERAL' (selected) and 'LICENSE DETAILS'. Under 'GENERAL', there is a search bar for licenses and two buttons: 'Search for a new license' and 'Install the new license'. Below this, the 'Local firewall date' is 'Wednesday 24th January 2024' and the 'Last check for license updates performed on' is 'Tuesday 2nd January 2024'. A list of license expiration dates is shown, including: 'License will expire in 5090 days, on Thursday 31st December 2037.', 'Maintenance will expire in 149 days, on Friday 21st June 2024.', 'Stormshield Vulnerability Manager will expire in 149 days, on Friday 21st June 2024.', 'Advanced antivirus will expire in 149 days, on Friday 21st June 2024.', 'Extended Web Control option will expire in 149 days, on Friday 21st June 2024.', and 'Sandboxing Breach Fighter option will expire in 149 days, on Friday 21st June 2024.'. A note at the bottom states 'The industrial option has not been subscribed.'

Scope of Work

Supplier

Delivery of the goods as indicated in the Technical Specifications. Due to the fluid landscape of cyberspace and mindset of cybercriminals, the supplier must provide 24/7 onsite/offsite technical support and/or assistance as need arises in relation to the operation of the firewall.

Philippine Information Agency

Inspect the delivered goods/item and if it conforms to the technical specifications and other statutory requirements of the agency, the end-user should provide Certificate of Acceptance to the supplier for onward action.

Payment

Payment will be made after the supplier submitted the following documents to PIA for accounting and auditing rules but not limited to:

- Billing statement
- Certificate of Acceptance

Warranty and Technical Support

The supplier warrants that the license coverage of One (1) year will start from the issuance of Notice to Proceed from the PIA.

Technical support as need arises within the covered period of the license procured.

Technical Specifications for the One (1) Lot of Stormshield Network Security License for One (1) Year

- Compatible to PIA existing network security appliance, Stormshield SN710
 - Premium UTM Security Pack for 1 Year Include Vulnerability Manager, Bitdefender Antivirus, Advance URL Filtering, Antispa
 - Antispam DNS Blacklist
 - ClamAV Antivirus
 - Contextual Protection Signatures
 - Antispam Heuristic Engine
 - Embedded URL Databases
 - Extended Web Control URL Databases
 - Bitdefender Antivirus
 - Vulnerability Manager
 - Stormshield Network Breach Fighter (sandboxing) – Requires Bitdefender option or Premium Pack
 - Sandboxing Breach Fighter
- One (1) Year (or 12 months) valid license
- Warranty coverage (1 year warranty)
- 24 hours and 7 days a week onsite/online technical support
