SUBJECT: Updated Directory of DOH-Designated Human Immunodeficiency Virus (HIV) Treatment Hubs and Primary HIV Care Facilities in the Philippines as of December 31, 2024

Article V, Section 33 of Republic Act No. 11166, or the Philippine HIV and AIDS Policy Act, mandates the Department of Health (DOH) to designate public and private hospitals to become HIV treatment facilities. As of December 31, 2024, there are 286 DOH-designated HIV treatment facilities nationwide, comprising 172 treatment hubs and 114 primary HIV care facilities, which are detailed in Annex A.

In line with the digital harmonization of reporting, all DOH-designated HIV treatment facilities are reminded to encode anti-retroviral (ARV) drug utilization on OHASIS, which shall include, but not be limited to, patient consumption and the remaining stock on hand. These data shall be used in forecasting, stock monitoring, and the allocation of commodities.

For strict compliance.
