Overview:

The Stormshield SN710 appliance is a next-generation firewall (NGFW) in which its signature needs to be updated regularly as new vulnerabilities are being discovered everyday.

It is the main gateway of the Philippine Information Agency to the internet. It provides protection against cybercriminals to the computing devices and network nodes, such as web/database servers, desktop, laptops, mobile devices, network devices. It can also filter websites, customize bandwidth allocation, internet bandwidth load balancing, deep packet filtering and more.

This appliance was procured and delivered in 2018 and is currently installed at the PIA Server Room and received regular updates for the application signatures, and firmware updates. There are approximately 400 wired and wireless devices concurrently connected to the PIA network every single day.

To continuously protect the PIA network against cyber threats, the firewall must receive its updates regularly or as soon as a new vulnerability is discovered. Thus, the need of procuring the one (1) year license is necessary.

Purpose:

The renewal of PIA's primary network security appliance license for one (1) year will guarantee the continuous operation of our next generation firewall (NGFW) at its full capacity and will provide

- up-to-date firewall signatures and definitions (Maintenance)
- continuous protection of critical endpoints within PIA and its DMZ network, thru advance filtering (Stormshield Vulnerability Manager, Kaspersky Antivirus, Sandboxing, Extended Web Control Option)
- effective internet bandwidth control and management
- real time network monitoring and network activity/audit logs for network traffic analysis.

Features:

Antivirus/anti-spam and Web domain filter signatures

Everyday, new attack vectors are being exploited in the wild. Malwares, spams, and phishing sites are being developed and spread by cybercriminals to achieve their objectives. With this, firewall application signatures need to be up to date to detect and prevent any intrusion.

Intrusion Detection/Prevention System (IPS/ IDS)

Real-time protection for incoming and outgoing network traffic.

Bandwidth Management

Bandwidth-hungry sites, like torrents, ftp, media streaming sites, downloading sites, porn, gambling, hacktivism, and other non-work-related sites, are being filtered in the firewall.

Sandboxing

To ensure that all files being downloaded over the internet or files being transferred from computer to server are free from malware, and/or any security threat, sandboxing is being utilized.

Licensing

The firewall appliance will have its end of life on the 31st of December 2037.

Signatures for Antivirus/antispam/IPS/IDS will receive signature updates until 21st of June 2025 unless renewed for another One (1) year.

Scope of Work

Supplier

Delivery of the goods as indicated in the Technical Specifications. Due to the fluid landscape of cyberspace and mindset of cybercriminals, the supplier must provide 24/7 onsite/offsite technical support and/or assistance as need arises in relation to the operation of the firewall.

Philippine Information Agency

Inspect the delivered goods/item and if it conforms to the technical specifications and other statutory requirements of the agency, the end-user should provide Certificate of Acceptance to the supplier for onward action.

Payment:

Payment will be made after the supplier submitted the following documents to PIA for accounting and auditing rules but not limited to:

- Billing Statement

- Certificate of Acceptance

Warranty and Technical Support

The supplier warrants that the license coverage of One (1) year will start from the issuance of Notice to Proceed from the PIA.

Technical support as need arises within the covered period of the license procured.

DELIVERY PERIOD: Covered Period: 21 June 2025 to 21 June 2026

PRICE VALIDITY: Sixty (60) Calendar Days

I hereby certify that the statement of compliance to the forgoing technical specifications are true and correct, otherwise, if found to be false either during bid evaluation or post-qualification, the same shall render our bid in automatic disqualification.
